NORTHERN ARIZONA UNIVERSITY

Department of Mathematics and Statistics

COLLOQUIUM
Thursday, February 11th, 2016
4:00 – 5:00 pm, Adel Mathematics Bldg., Room 164
(refreshments at 3:45)

Phillip Hotchkiss
Professor of Mathematics
Department of Mathematics, Westfield State College

Rhythms and Rascals

Abstract: One of the beautiful aspects of mathematics is that simple explorations can lead to interesting mathematical questions. Moreover, students are often able to make, explore and answer these mathematical questions. In this talk we will start with a simple musical exploration that will lead us to one of the most famous number sequences and some very cool results by some rascally students.

Algebra Combinatorics Geometry and Topology (ACGT) Seminar meets every Tuesday, 12:45 – 1:45 pm, AMB 164.

Applied Math Seminar (AMS) meets every Thursday, 12:45 – 1:45 pm, AMB 164. Jesse Mapel will speak about his M.S. Thesis research with Neuberger.

Friday Afternoon Undergraduate Mathematics Seminar (FAMUS) meets Fridays, 3pm, AMB 164. Dr. Hotchkiss will be the speaker.
